

GRATIOT INTEGRATED

HEALTH NETWORK

Join the Consumer and Family Advisory Committee

The CFAC is a great way to learn more about Gratiot Integrated Health Network (GIHN) and serve as an advocate for yourself and other GIHN consumers.

The Consumer and Family Advisory Committee (formally known as the Client Advisory Panel) has several staff liaisons and a total of twelve (12) members who represent different areas of GIHN services. Each member serves on the committee for two years. Meetings are held bi-monthly on the third Thursday of the month and last approximately one hour.

Each member will receive a stipend of \$30. Attendance is expected and input is encouraged.

Various activities a committee member has the opportunity to become involved in include:

- Helping to make recommendations to improve mental health services.
- Planning and organizing wellness initiatives and educational opportunities for consumers and the community.
- Reviewing and providing feedback on agency operations, policies, performance indicators, and consumer satisfaction survey reports.
- Participation in Self-Advocacy through events such as Walk-a-Mile in my shoes.
